EDUCATION BACKGROUND

The Chinese University of Hong Kong 09/2022 – 10/2026 (*Expected*)

Ph.D. in Geography, Department of Geography and Resource Management

- **Supervisor:** Prof. Jianfa Shen
- **PhD Thesis** *Understanding intercity youth migration based on geotagged social media data*

National University of Singapore 08/2020 – 08/2022

M.Soc.Sci. in Geography, Department of Geography

- **Supervisor:** Assoc. Prof. Feng Chen-chieh
- **Master Thesis** *Investigating the effect of landscape structures and urban functions on the urban heat island phenomenon using 3D GIS and RS techniques*

Wuhan University 09/2016 – 06/2020

B.Sc. in Remote Sensing, School of Remote Sensing and Information Engineering

- **Thesis Title:** *Building extraction from high-resolution satellite images based on deep learning method*

PUBLICATIONS

- **Wang, J.**, Feng, C.-C., & Guo, Z. (2023). A novel graph-based framework for classifying urban functional zones with multisource data and human mobility patterns. *Remote Sensing*, 15(3), 730.
- Weiyu, L., Yuanyuan, X., Tong, S., & **Jifei, W.** (2022). Air quality dynamics and urban heat island effects during COVID-19. In *Geospatial Data Analytics and Urban Applications* (pp. 33–59). Springer Nature Singapore.

CONFERENCE PRESENTATIONS

- **Wang, J.** (Jul 2026). Emotional geographies of youth migration: Spatiotemporal sentiment dynamics from digital traces in China. *33rd International Conference on Geoinformatics (CPGIS 2026 Annual Meeting)*, Singapore.
- **Wang, J.** (Jun 2026). Investigating China's Youth Migration Drivers Based on Bias-corrected Social Media Data. *13th International Conference on Population Geographies*, Nanjing, China.
- **Wang, J.** (Mar 2026). Mapping Population Mobility and Urban Hierarchy in China through Social Media Check-ins. *2026 AAG Annual Meeting*, San Francisco, USA.

RESEARCH PROJECTS

Spatiotemporal Urban Heat Island (UHI) Dynamics & LST Analysis 09/2020 – 03/2022
Student Helper, National University of Singapore

- Investigated the effects of urban composition and 3D landscape morphology on Land Surface Temperature (LST) variations.

Tropic Tree Species Identification Project (Collaborated with NTU) 03/2021 – 04/2021
Student Helper, National University of Singapore

- Executed 3D point cloud segmentation and classification for individual tree identification in tropical forests.

TEACHING EXPERIENCE

The Chinese University of Hong Kong 2022 – 2026
Teaching Assistant, Department of Geography and Resource Management (GRM)

- **Courses Assisted:** Population and Migration (GRMD 3302), A World of Diversity (GRMD 1401), Environmental Management (GRMD 3202), Cities of the World (UGEC 2117), Final Year Thesis (GRMD 4001 & 4002).
- **Tutorials:** Conducted FYT SPSS statistical analysis workshops for Final Year Thesis students.

SKILLS

- **Programming & Data Analysis:** Python (Advanced data analytics & visualization), MATLAB, R.
- **Spatial Analysis & GIS:** ArcGIS, Google Earth Engine (GEE), ENVI, eCognition.
- **Languages:** Chinese (Native), English (Proficient).

AWARDS & SCHOLARSHIPS

- Postgraduate Studentships 2022 – 2026
- Excellent Student Cadre, First prize of Academic Scholarship, Outstanding Student 2017 – 2020
